B-634523 1c in KB 7/25/66

Large almost pure stands south of Alpena, Mich on Partridge Point, Hy 23. opposite 128 Outer Wb.

Dec 14, 67 Research Triangle Inst. had low KB activity in PR 14978, and wants new large sample of fruit.

B-634523 QNS - Excellent activity (fruit) - Per letter to B.J. Abbott from Research Triangle Institute - 1/23/68.

4/70 Wall - under fruit KB, ~~probably failed~~ PS & WM active in  
 recol of fr needed

[OVER]

June 70 Large stands occur along Hy. 15  
in central Pennsylvania along valley  
of Susquehanna River

Donatowski and Curby are  
collecting this in 1970 but  
doubtful they will get enough  
as the fruit are fairly well  
dried up. This collection  
should be made in  
late July. Both of these  
collectors are in Alpena  
(see corresp. file)

Donatowski collection will  
be made by <sup>the two boys</sup>  
who collected this for L.A.S.  
in 1969
