"Our recent examination of *Thalictrum polycarpum* (PR 9679, California) showed that it had no thalicarpine. However, it contained an apparently new alkaloid which would be of interest to the program. Could you get us 25 lbs. of the same material?" S.M.Kupchan's letter of July 6, 1966.

Smith will look for this in 1968

3/70 Coll. in 1968
